| Evolution and inheritance | | |
| Autumn 2018 | Spring 2019 | Summer 2019 |
| Animals including humans | Earth and space | Everyday materials |
| Seasonal change | Forces | Uses of everyday materials |
| | Forces and magnets | Properties of materials |
| | | States matter |
| Autumn 2019 | Spring 2020 | Summer 2020 |
| living things and their habitats | Sound | Light |
| Rocks | Electricity | Plants |
| Evolution and inheritance | | |

The Broomfield SILC science long term plan for Primary is based on the National Curriculum Programmes of study for Key Stage 1 and 2. The plan aims to teach each strand over a 2 year period so that scientific concepts can be revisited and reinforced. <u>YOU MUST TEACH THE LISTED STRAND AND NOT MOVE THEM AROUND AS THIS WILL AFFECT DATA COLLECTION</u>

The curriculum will be enriched with regular science days and extra-curricular activities.

Working scientifically should be incorporated in to all strands.
